NEW CHINESE TREATY.

Senate Committee on Foreign Relations Is Now Considering One.

WASHINGTON, March 22.—The Senate committee on foreign relations has been considering an important Chinese treaty, negotiated by the new Chinese minister and Secretary Gresham. The treaty was sent to the Senate some time ago and referred to the foreign relations committee, where it has been very fully considered, and they discussed it at all its sittings. It is said it does not meet the approval of some of the senators who are members of the committee. It is understood this opposition, while considerable, has not been sufficient to prevent its being reported favorably, though possibly with some amendments.

As negotiated, the treaty practically sets aside and supersedes the Scott exclusion act and the recently enacted Geary law. It is an immigration treaty and provides for the admittance of Chinese immigrants under restrictions. It also has for its object the protection of Chinese already in this country. While it does not repeal the Geary law, it is said to render it nugatory in many particulars.

D. M. Smith, general merchant and Indian trader at Navajo station, N. M., was shot through the body. His throat cut from ear to ear and stabbed several times, probably by renegade Indians.

In New Orleans, Asa Guy Gurney, who was on trial before the criminal court charged by the American express company with having stolen \$15,000 from a package of \$30,000, has been acquitted.

Gen. Andrew D. White is about to retire from the Russian mission. The mission will be raised to the rank of embassy, and Levi Z. Lettler, the Chicago millionaire, will be made ambassador to the court of St. Petersburg.

The political committee of the National Liberal club has formed a commission to prepare a ceremonial presentation to Sir Gladstone, and has asked the other liberal bodies, including the McCarthyites, to co-operate with it in this object.

ESTIMATES REVENUES.

Probable Amount Which Will Be Realized Under the Senate Tariff Bill.

WASHINGTON, March 22.—The estimates of the amount of revenue which the tariff bill reported to the Senate will probably yield show that the total amount will be about \$30,000,000. This is a reduction of between \$15,000,000 and \$16,000,000 from the estimates in the first bill reported to the committee. The principal reduction is made in the internal revenue part of the bill through the restoration of the present tax rates on domestic cigars and cigarettes, which amounts to a loss of \$10,000,000. There will also be an appreciable falling off in the duty on imported tobacco by changing the duty on that importation from 1 1/2 cents to 1 cent per pound.

The change in the fruit schedule,

whereby bananas, pineapples and coconuts are taken from the dutiable list, will make up the other principal items of loss. Bananas are imported in large quantities, and the imposition of a duty of two cents per pound, first imposed by the committee, would have produced a revenue of \$1,672,230. The committee found, upon investigation, however, that the bill would produce more revenue than would be needed, and as bananas are not produced in this country out of a small section on the Gulf of Mexico, it was decided to restore them to the free list.

As the bill stands, if the estimate is correct, it will produce at least \$30,000,000 more of revenue than will be needed. The change made in the sugar schedule will not cause a showing in the estimates different from the sub-committee bill, as the first estimate was made upon sugar testing ninety degrees sine. The estimate for the present bill will probably be upon the same grade of sugar. There would, however, be a slight difference in the actual returns, as the maximum duty rate under the present bill is 1 1/2% per pound as against 1 1/2% on the sub-committee bill. The difference on this score would be controlled entirely by the quantity of the high grade sugar imported.

MANY CHANGES MADE.

Over Half the Presidential Post offices Filled by Democrats.

WASHINGTON, March 22.—More than one-half of the whole number of presidential post offices have been filled by nominations sent to the senate since the incoming of the present administration. A comparative statement prepared at the post office department, shows that the number of appointments by the last administration from March 4, 1889, to March 12, 1890, was

1,672. There were thirty-two presidential appointments made March 30, 1890. The number made by this administration between March 4, 1890, and March 13, 1891, was 1,720. The total number of presidential post offices in operation March 13 last was

1,720. Figures of appointments of fourth class postmasters for the former Cleveland administration and the Harrison administration are given on the basis of sixteen months, as official statements as compiled cover the fiscal year, and the period from March 4 to July 1 of the first year of each administration. For the twelve months of the present administration the number of changes in fourth class postmasters was 23,012. The changes for the sixteen months ending June 30, 1890, aggregated 20,881. For the first sixteen months of the Harrison administration the number was 23,645. The monthly average of appointments of both presidential and fourth class postmasters during the Harrison administration was 1,478 and for the present administration 1,097.
